DETAILED ACTION

Allowable Subject Matter

Claims 1 – 14, 16 and 18 – 20 are allowed.

The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations recited in claims 1 and 10 (& associated dependent claims).

The present invention is directed to an electronic device for cryptographic processing that comprises at least two electronic circuits coupled via a connection means is arranged for transferring data signals between the two electronic circuits, wherein the data signals convey protected information. No singular art disclosing, nor motivation to combine has been found to anticipate or render obvious the claimed invention that the connection means comprises a bus having a plurality of address bit lines and a plurality of data bit lines arranged for transferring data signals between the two electronic circuits, wherein the data signals convey protected information and wherein the monitoring circuit arranged to monitor a deviation in the capacitance of the connection means is further configured to generate a plurality of alert signals, including up to one alert signal for each address bit line and data bit line that is monitored, wherein the monitoring circuit further comprises logic gates to combine the plurality of alert signals into a single alert signal and to output the single alert signal.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LONGBIT CHAI whose telephone number is (571)272-3788. The examiner can normally be reached on Monday-Friday 9:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz R. Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
